

Guidelines for student

- Finding research areas of faculties
- Discussing about the ideas that you have with the faculties
- Should have at least 3 project topic in hand
- Selection of supervisor and final approval of topic and discussion with coordinator.
- From the day of the project approval or proposal presentation student has to maintain a weekly logbook and should give the updates to supervisor and get signed from them.
- Any material need to be purchased should be discussed with supervisor and get approval and the purchase bill has to be shown to supervisor and should be kept carefully as they are required later for refund purposes. Only the amount with the bill will be reimbursed.
- Equipment bought should be submitted to department after the termination of the project.
